LAKE CABLE
When Delivery Matters..

BETTER. SMARTER. FASTER.™

CARDBOARD vs. CABLEM8™ Bags

Compare crumpling up eight plastic bags and tossing them in a recycling bin to breaking down bulky cardboard boxes for disposal. It's what makes the CableM8™ Bag a winner for dramatically reducing on-site waste.

30x less waste - 100% recyclable!

When EASY Delivery Matters...

CABLEM8™ BAGS

The CableM8™ Bag's shrink-wrap packaging provides payout that rarely tangles, for minimal hassle and backtracking. Plus, the easy disposal of its 100% recyclable packaging means a lot less on-site waste. Simply put, it's the smartest way to load, transport and pull up to 1,000 feet of cable.

CABLEM8™ BAG SPECIFICATIONS

Cable under OD .180" is offered in both 500 ft. and 1,000 ft bags.

Cable above OD .180" is available in 500 ft. bags.

PULL FORCE TEST RESULTS:

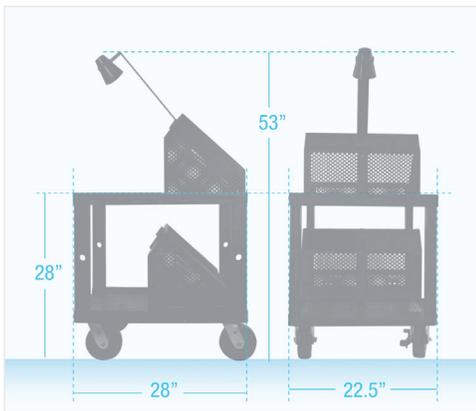

WIRE TYPE	# OF CABLES	STRAIGHT PULL	90° CORNER PULL	90° VERTICAL PULL
