Compliant Insulated Wire and Cable Products

Lake Cable LLC considers greener operations as both ecologically responsible and economically sound, and every aspect of potential impact is continually evaluated for a more earth-friendly solution.

In June 2015 the recast **RoHS 3** (Restriction of the Use of Certain Hazardous Substances in Electronic and Electrical Equipment) Directive 2015/863/EU was placed in effect, amending Annex II of **RoHS 2** (Directive 2011/65/EU). This directive defines Electrical or Electronic Equipment (EEE) as equipment which is dependent on electric current or electro-magnetic fields for any of its intended functions.

Lake Cable does not intentionally use or add any Substances of Restriction of the Use of Certain Hazardous Substances to Lake Part(s). Therefore, all products of Lake Cable LLC meet the requirements of the **RoHS 3** Directive and **RoHS 2** Directive with respect to containing none of the ten restricted substances over allowable limits, unless specified otherwise.
